CONCEPT IMAGE

SUNDOWNS ONE — THE YELLOW NATION, ONE TAP AWAY.

PREPARED FOR MAMELODI SUNDOWNS

A STRATEGY FOR THE FAN APP AS THE CLUB'S MARKETING SYSTEM, PARTNER PLATFORM AND NEW SOURCE OF REVENUE.

THE FAN APP · MARKETING SYSTEM · PARTNERS · VALUE AND INVESTMENT

EXECUTIVE SUMMARY

ONE FAN APP. AN OWNED CHANNEL THAT FILLS LOFTUS AND PAYS ITS OWN WAY.

Sundowns is followed far beyond Loftus. Sundowns One turns that following into a known relationship, and the relationship into tickets, members, partner revenue and reach the club owns.

R2 400 000 TO BUILD

The Yellow Nation edition: iOS, Android and web from one codebase. Fixed price, excluding VAT.

28 WEEKS TO LAUNCH

A closed pilot at week 22. Both app stores and the web at week 28, on a home match day.

ABOUT R5.1M OF VALUE A SEASON

Base case, illustrative: tickets, memberships, store, partners and reach. Pays back in about six months of a full season.

PARTNERS FUND THE BUILD

Three partner properties bring R2.3m a season: 96% of the build cost, every season they are sold.

APP, CODE AND DATA: THE CLUB'S

Handed over on final payment. Supporter data is collected under POPIA, with a clear yes for marketing.

A WEEK-3 GATE BEFORE THE BUILD

Ticketing, membership, match-data and venue providers are confirmed first, or we re-scope with you.

THE OPPORTUNITY

WHY A FAN APP, AND WHY IT CREATES VALUE BEYOND MATCHDAY

A matchday companion, a rewards programme, a partner platform and a marketing channel in one. It compounds: every supporter it gains can be reached again.

01

OWN THE RELATIONSHIP

Social reach is rented. A supporter who opts in can be reached directly, at almost no cost per message.

02

KNOW WHO IS IN THE STANDS

Tickets, membership and the Passport turn an anonymous crowd into known supporters, with their permission.

03

TURN FIRST-TIMERS INTO REGULARS

The north star is repeat verified attendance. The app plans the first visit and gives a reason for the second.

04

EARN BETWEEN MATCHDAYS

Fifteen home league matches a season. Match Centre, stories, the Fan Zone and the store fill the days between.

05

MAKE PARTNER SPEND PROVABLE

Opted-in reach and verified redemptions replace estimates with evidence partners can count.

06

THE YELLOW NATION, EVERYWHERE

Supporters far from Pretoria get kick-off in their time zone, watch parties and a plan to visit Loftus.

THE STRATEGY ON A PAGE

FOUR LEVERS OF SUPPORTER REVENUE. ONE APP PULLS ALL OF THEM.

Supporter revenue is known supporters × how often they come × what each is worth, plus what partners pay to reach them. Each part of the app moves one of those four numbers, and each is measured.

MORE KNOWN SUPPORTERS

- Join from a stadium QR code, a ticket or a friend's invite
- Guest mode first; sign up when it earns something
- Every ticket and membership links to a profile

MORE MATCHES PER SUPPORTER

- A first-match guide and planner
- Bring Your Crew and the Second Match Challenge
- Passport stamps for every verified visit

MORE VALUE PER SUPPORTER

- Tickets, membership and the store in one place
- Offers by segment, not by blanket discount
- Renewal and win-back journeys

MORE VALUE FOR PARTNERS

- Opted-in reach, counted rather than estimated
- Offers and redemptions tracked to their source
- Totals for partners; personal data stays with the club

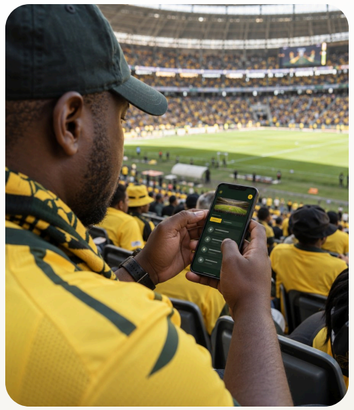

NORTH STAR

REPEAT VERIFIED ATTENDANCE: THE SUPPORTER WHO COMES BACK. EVERY FEATURE, CAMPAIGN AND PARTNER IS JUDGED BY IT.

WHO IT SERVES

SIX SUPPORTERS THE APP IS BUILT TO SERVE

Each supporter has a job they want done. The app does it for them, and the club gets a measurable result in return.

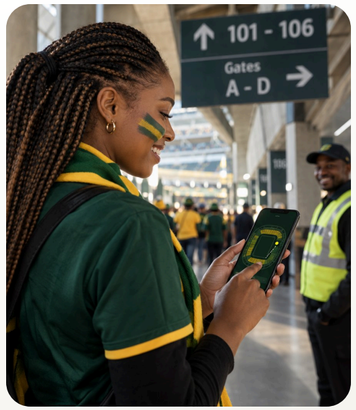

THE MATCHDAY REGULAR

Wants: a ticket and no queue.

App: the pass, gate and seat, Passport stamps.

Measure: matches attended

THE FIRST-TIMER

Wants: to find the gate, the seat and the food.

App: first-match guide, planner, stadium map.

Measure: a second verified visit

THE FAMILY

Wants: a safe, easy day out.

App: family guide, accessible routes, meeting point.

Measure: family attendance

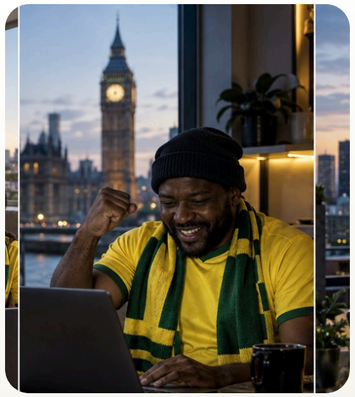

THE MEMBER

Wants: to be recognised.

App: membership link, Passport, benefits.

Measure: renewals

THE FAR-AWAY MASANDAWANA

Wants: to feel close from anywhere.

App: Match Centre, local kick-off times, watch parties.

Measure: active days a month

THE LAPSED SUPPORTER

Wants: a reason to come back.

App: a win-back note, the Second Match Challenge.

Measure: supporters reactivated

These segments are working hypotheses. Each is sized from the club's ticketing, membership and app data in discovery, and campaigns are weighted to the segments that prove largest. Concept imagery, not club photography.

A FAN APP FIRST. EVERYTHING ELSE FOLLOWS.

SUPPORTERS OPEN AN APP THAT SOLVES THEIR MATCHDAY. THE CLUB'S MARKETING, PARTNER AND REVENUE ENGINE RUNS UNDERNEATH, ON THE TRUST THAT EARNS.

THE FAN APP · MATCHDAY

YOUR MATCHDAY, SORTED: FROM TICKET TO SEAT

TICKETS AND THE PASS

OFFICIAL SELLER, VERIFIED ENTRY

Tickets come only from the official seller. The pass shows gate, block, row and seat; the entry code stays in the seller's wallet.

THE MATCHDAY PLANNER

CREW, TRAVEL, BUDGET

Crew size, travel, the supporter's own budget and a six-step checklist. A shared plan never includes a ticket or a location.

STADIUM GUIDE AND HELP

GATES, SEATS, SERVICES

A venue-approved map of gates, seats, food, first aid and accessible routes, and a real person for money, entry and safety.

THE FAN APP · BELONGING

BELONG, PLAY AND FOLLOW, EVERY DAY OF THE WEEK

MATCH CENTRE

THE DAILY HABIT

Fixtures, results and live events from a licensed feed, each with its source and time. Nothing unconfirmed is shown.

FAN ZONE AND COMMUNITY

PLAY, SHARE, FIND YOUR PEOPLE

A score predictor, club quiz and stadium QR challenge, with no betting. Verified branches and watch parties, at home and abroad.

YELLOW NATION PASSPORT

EVERY VERIFIED VISIT COUNTS

Stamps for verified visits and approved activity, never for saying yes to marketing. Rewards sit on an auditable ledger.

THE SUPPORTER JOURNEY

FROM FIRST TAP TO NEXT MATCHDAY, ONE CONNECTED FLOW

Each step is something the supporter wants to do. Each one also hands the club something it can use: a source, a known supporter, a filled seat, a reason to return.

01 DISCOVER

SUPPORTER
Finds the app from a stadium QR code or a friend.

THE CLUB GETS
The source of every sign-up.

02 JOIN

SUPPORTER
Browses as a guest, then signs up.

THE CLUB GETS
A known supporter, with consent.

03 PLAN

SUPPORTER
Plans the crew, travel and budget.

THE CLUB GETS
Matchday intent, a week early.

04 BOOK

SUPPORTER
Buys from the official seller and links the ticket.

THE CLUB GETS
A seat sold, linked to a profile.

05 ATTEND

SUPPORTER
Shows the seller's entry code at the gate.

THE CLUB GETS
A verified attendance.

06 EARN

SUPPORTER
Gets a Passport stamp.

THE CLUB GETS
A reason to return, without discounts.

07 RETURN

SUPPORTER
Comes back, renews or shops.

THE CLUB GETS
Repeat attendance and spend, measured.

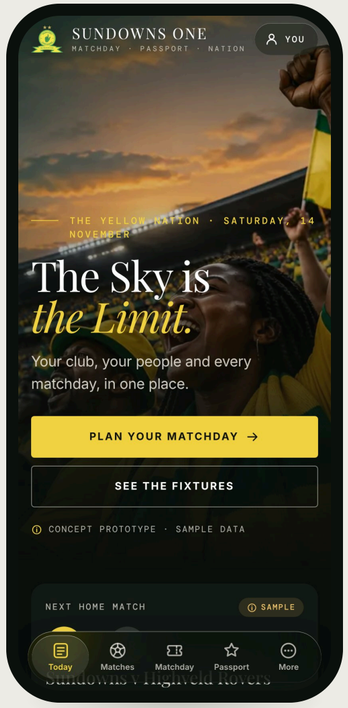

UNDERNEATH

EVERY STEP WRITES TO ONE SUPPORTER RECORD. THAT IS HOW A TICKET TRIGGERS ITS REMINDER, A VISIT EARNS ITS STAMP AND A CAMPAIGN PROVES IT WORKED.

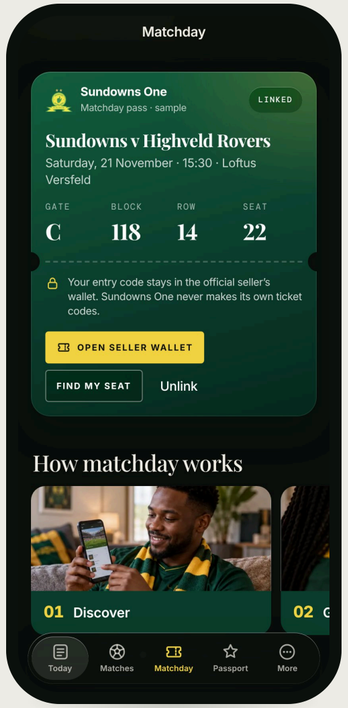

PROOF BEFORE PAYMENT

THE APP ALREADY WORKS. THIS INVESTMENT TAKES IT LIVE.

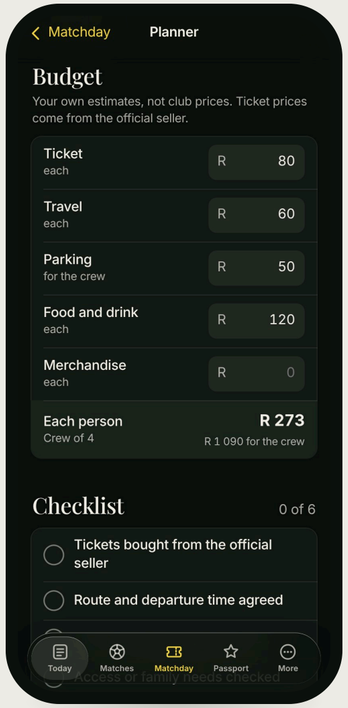

A working fan app built from the brief, running on labelled sample data, with all 51 supplied images reviewed. The build starts here, not from a blank page.

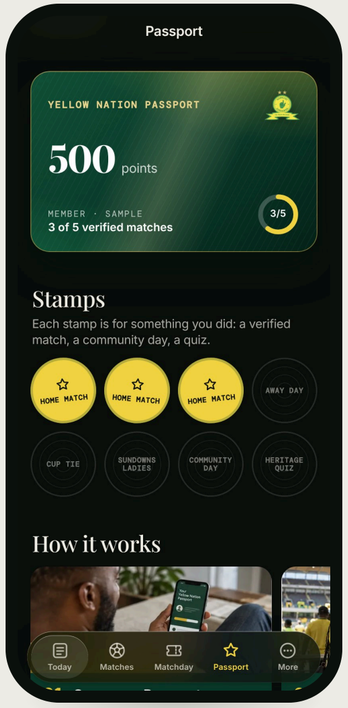

TODAY

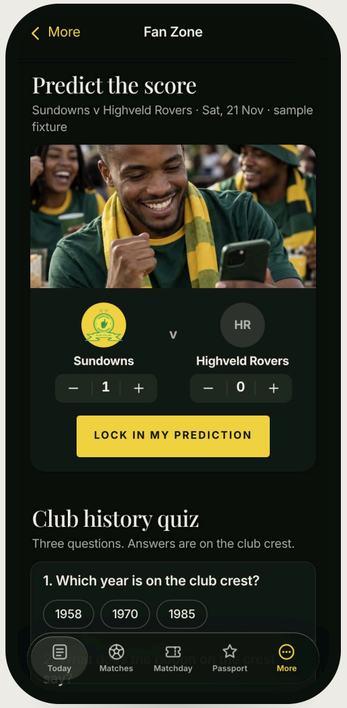

MATCHDAY PASS

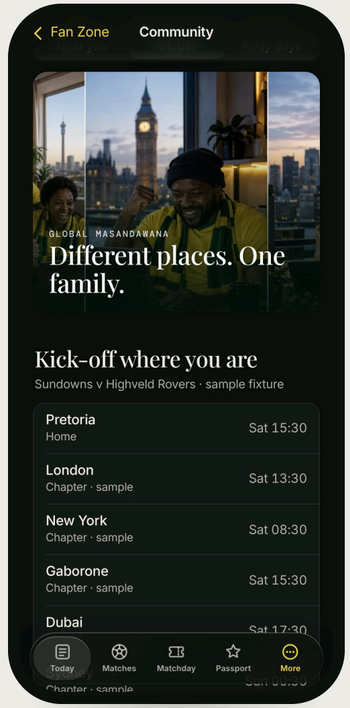

PLANNER

PASSPORT

FAN ZONE

GLOBAL

23 SCREENS

Phone, small phone and desktop, in dark and light.

31 AUTOMATED CHECKS

Planner, consent, Passport, parallax and offline. All passing.

ZERO ACCESSIBILITY ERRORS

WCAG 2.2 AA, across 23 screens and 10 sheets.

ONE OFFLINE FILE

The whole app in about 4 MB, shared by WhatsApp.

THE APP AS THE CLUB'S OWN MARKETING SYSTEM

EVERY FIXTURE, TICKET AND SHARED MOMENT IS DESIGNED TO BRING IN THE NEXT SUPPORTER, AND TO SHOW THE CLUB EXACTLY WHERE THEY CAME FROM.

THE SELF-MARKETING LOOP

EACH SUPPORTER BRINGS IN THE NEXT ONE

HOW IT COMPOUNDS

Paid media buys attention once. The loop keeps it: the plan, the crew, the stamp and the shared moment each carry the club to someone new, and the app tracks every turn.

A TICKET IS RARELY FOR ONE

Bring Your Crew rewards the inviter only when the friend's entry is verified, never for a click.

A MOMENT IS AN INVITATION

An approved fan photo or prediction card carries the club, with a tracked link, into a supporter's own circle.

THE SYSTEM FOR EVERY HOME MATCH

EVERY HOME MATCH RUNS THE SAME EIGHT-STEP GROWTH CALENDAR

Each home league match is worked from four weeks out to the next fixture. Every step answers a supporter's question and has one measure, so the club sees which step to strengthen.

T–28 TO T–21

REVEAL

"I haven't heard about it."

THE APP
Fixture reveal and a shareable page.

MEASURE
Fixture page visits

T–20 TO T–14

EXPLAIN

"How does the day work?"

THE APP
Ticket route, travel and family information.

MEASURE
Ticket taps

T–13 TO T–7

COMMIT

"Give me a reason."

THE APP
Bring Your Crew and branch pushes.

MEASURE
Tickets by source

T–6 TO T–2

ORGANISE

"Let's sort the details."

THE APP
Planner, crew plan, reminders.

MEASURE
Plans completed

T–1 TO KICK-OFF

ARRIVE

"Help me get in."

THE APP
Pass, gate, seat and venue notices.

MEASURE

QR challenge, food, Player of the Match vote.

MEASURE
Participation

T+1 TO T+3

RELIVE

"Let me relive it."

THE APP
Highlights, a stamp and a one-question survey.

MEASURE
Return visits

T+4 ONWARD

RETURN

"Bring me back."

THE APP
Second Match Challenge and the next fixture.

MEASURE
Repeat attendance

A SEASON

15 HOME MATCHES × 8 STEPS = 120 PLANNED MOMENTS, EACH ONE DRAFTED, APPROVED AND MEASURED.

CAMPAIGN PLAYBOOK

SIX CAMPAIGNS, READY FOR THE SEASON

Each campaign has one job, one audience and one button, and moves one line of the value model.

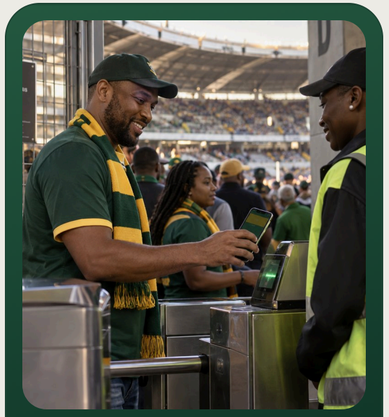

FIRST MATCH PROMISE

GOAL	First verified visits
WHO	Followers who have never been
WHERE	Social, web, WhatsApp
MOVES	Tickets

BRING YOUR CREW

GOAL	Groups, not singles
WHO	Regulars and branches
WHERE	WhatsApp, in-app
MOVES	Tickets

SECOND MATCH CHALLENGE

GOAL	A second visit within 60 days
WHO	First-timers
WHERE	Push, email
MOVES	Tickets, partners

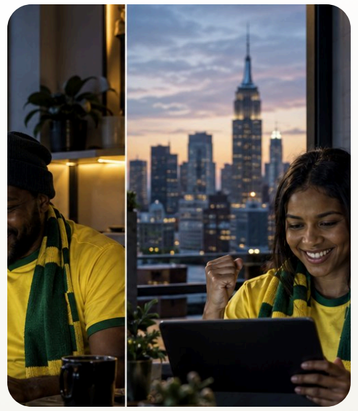

YELLOW NATION BRANCH CUP

GOAL	Branches fill a block
WHO	Verified branches
WHERE	Branch links, QR
MOVES	Tickets, partners

FAMILY MATCHDAY

GOAL	Families back each month
WHO	Guardians, with consent
WHERE	Email, in-app
MOVES	Tickets, members

GLOBAL MASANDAWANA

GOAL	Active days from afar
WHO	Supporters outside SA
WHERE	Social, email, WhatsApp
MOVES	Members, store

Sample campaign structures. Final copy, offers, prices and dates are written with and approved by the club before anything goes live. Concept imagery, not club photography.

WHAT SUPPORTERS RECEIVE

S1 SUNDOWNS ONE NOW

Your seat is ready

Sundowns v Opponent A. Gate C, Block 118. Your entry code is in the seller's wallet.

S1 SUNDOWNS ONE DAY BEFORE

Matchday tomorrow

Kick-off 15:30 at Loftus Versfeld. Your crew plan and gate are in the app.

S1 SUNDOWNS ONE FULL-TIME

Thank you for being there

Your visit is verified: a new Passport stamp. Two more to your next milestone.

S1 SUNDOWNS ONE WITH CONSENT

It has been a while

The next home match is close. Bring a friend and you both earn.

Sample messages; the club sets final wording and timings. *WhatsApp switches on only once the club approves the provider, templates and consent wording.

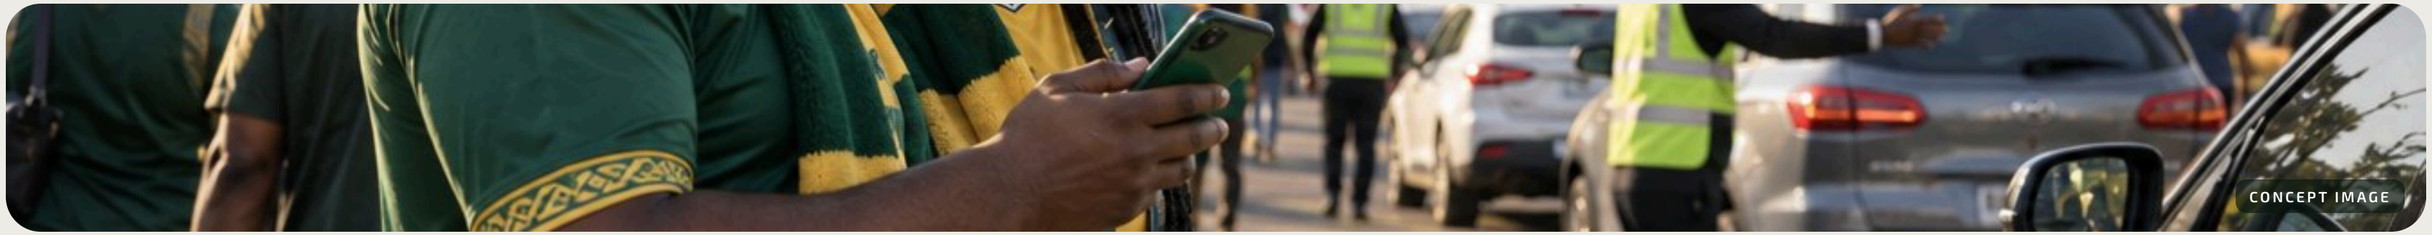

GUARDRAILS, BUILT IN

- Consent recorded per channel and purpose, with wording and version
- A global suppression list, checked again just before every send
- Frequency caps and quiet hours
- Every campaign approved by a second person
- Service and safety messages never carry promotions
- One-tap opt-out, honoured immediately

LAUNCH MARKETING

THE FIRST 90 DAYS: SEED, LAUNCH, COMPOUND

Launches fail quietly when the app is ready but the stadium is not. The plan starts with the people at the gates and the big screen, not with an advert.

WEEKS −6 TO 0

SEED

- A briefing for stewards, ticket office and store staff
- QR codes on tickets, seats and the big screen, tracked by spot
- Links on the club's website, socials and WhatsApp
- A first look for supporters already on the email list

DAYS 1 TO 30

LAUNCH

- A home match as launch day
- A founding-supporter Passport stamp, value set by the club
- "Scan to join" at every gate and on the big screen
- The Presenting Partner's launch moment, once sold

DAYS 31 TO 90

COMPOUND

- The eight-step calendar for every home match
- The Second Match Challenge for every first-timer
- Branch Cup and Family Matchday go live
- A 90-day review: move spend to what fills seats

MEASUREMENT

EVERY NUMBER THE MARKETING MOVES HAS A RAND LINE

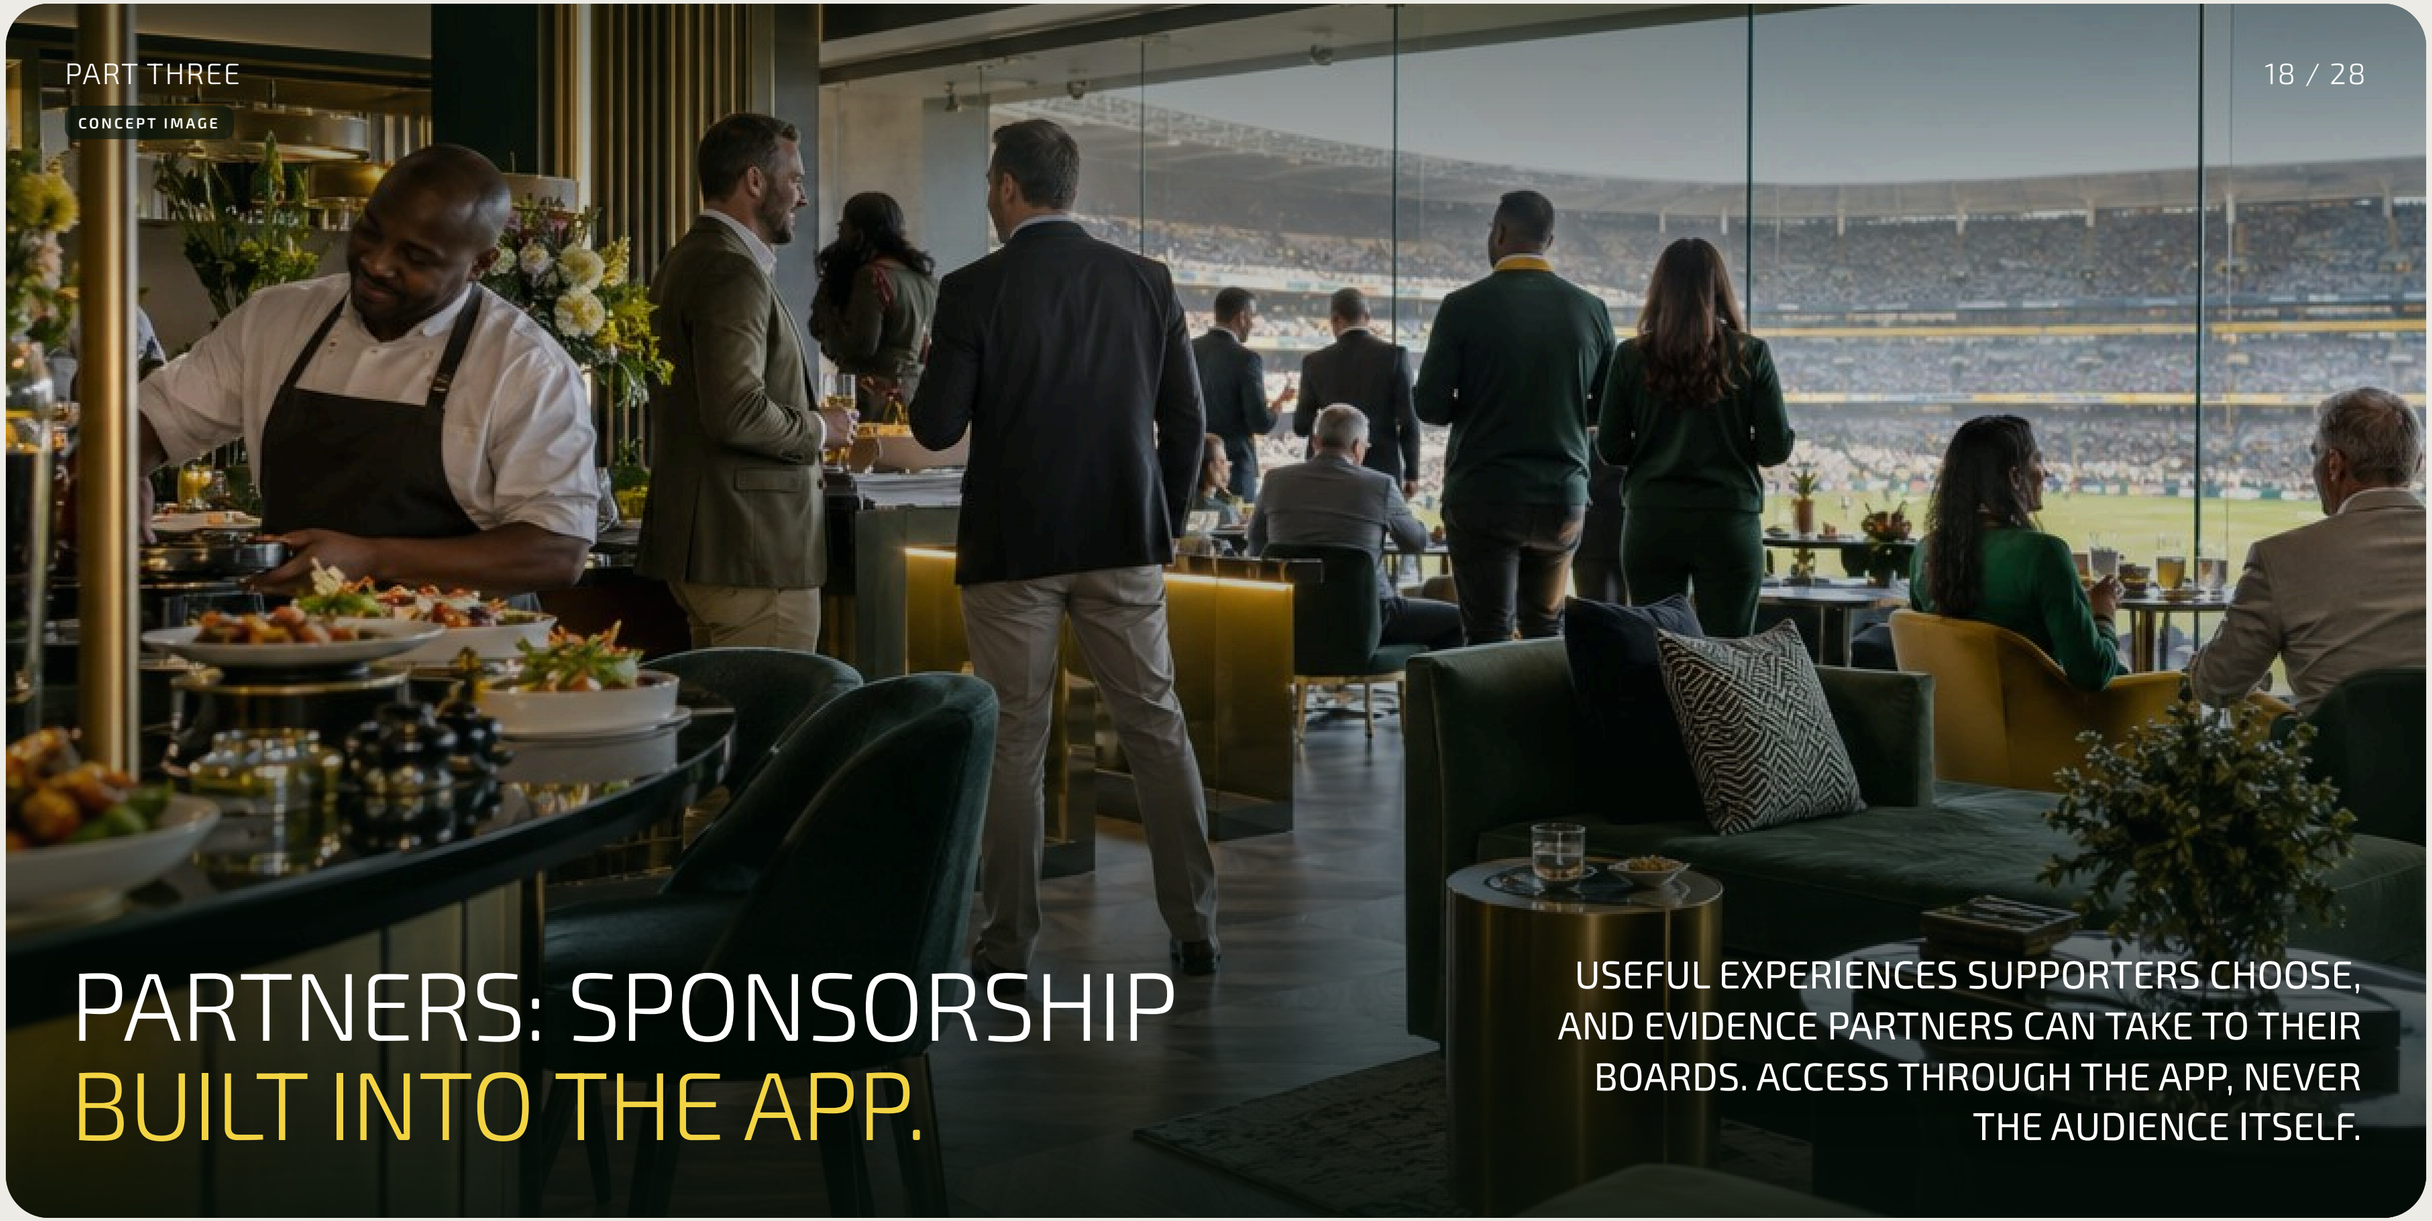

Business outcomes, not vanity metrics. Baselines are measured in month one, targets are agreed in discovery, and each measure feeds one line of the value model.

WHAT THE APP MEASURES	HOW IT IS COUNTED	VALUE LINE	BASE CASE, A SEASON
EXTRA VERIFIED ATTENDANCES 1 200 a home match	Gate scans from the official seller, against a holdout group	Extra tickets	R1 440 000
MEMBERSHIPS LINKED AND RENEWED 2 000 a season	The club's own membership system	Memberships	R600 000
APP-ATTRIBUTED STORE ORDERS 4% of known supporters	Tracked links to the official store	Store, club share	R480 000
PARTNER REACH AND REDEMPTIONS Three properties sold	Partner reports, from view to verified redemption	Partners	R2 300 000
SUPPORTERS REACHABLE WITH A YES 60 000 known supporters	Profiles with consent recorded per channel	Paid reach replaced	R288 000
TOTAL VALUE, BASE CASE			**R5 108 000**

Illustrative base case, explained on slide 23. Each figure is replaced with a measured one from month one.

NORTH STAR: REPEAT VERIFIED ATTENDANCE

First to second visit within 30, 60 and 90 days, by source. Value is claimed only where a holdout group shows the app made the difference.

PARTNERS: SPONSORSHIP BUILT INTO THE APP.

USEFUL EXPERIENCES SUPPORTERS CHOOSE, AND EVIDENCE PARTNERS CAN TAKE TO THEIR BOARDS. ACCESS THROUGH THE APP, NEVER THE AUDIENCE ITSELF.

PARTNER VALUE

A KNOWN AUDIENCE IS WORTH MORE TO EVERY PARTNER

Sponsorship is sold on reach. The app lets the club sell results as well: how many opted-in supporters saw an experience, used it and came back.

COUNTED REACH

- Opted-in supporters by segment and region
- Real numbers, not follower counts
- Reported for every campaign

PROVEN RESPONSE

- Offers tracked from view to verified redemption
- QR and link attribution, at Loftus and online
- Holdout groups show what a campaign added

USEFUL INVENTORY

- Properties that make matchday easier
- Every partner placement labelled as one
- One partner moment on Today, never clutter

THE CLUB KEEPS THE DATA

- Partners receive aggregated reports only
- Personal data is never sold or handed over
- Consent per purpose, under POPIA
- Every partner and offer approved by the club

PRINCIPLE

PARTNERS BUY ACCESS TO AN AUDIENCE THROUGH THE CLUB, NEVER THE AUDIENCE ITSELF. THAT KEEPS SUPPORTERS OPTED IN.

PARTNER PROPERTIES

SIX PARTNER PROPERTIES, WORTH UP TO R3.3 MILLION A SEASON

Each property funds something supporters use, so the partner is remembered for helping. Fees are indicative, for planning, and are set after a rights audit against the club's existing partners.

	PROPERTY	SUPPORTERS GET	THE PARTNER GETS, AND PROVES	SEASON FEE
01	PRESENTING PARTNER OF SUNDOWNS ONE	Partner-funded experiences across the app	"Presented by" credit; reach and engagement report	R1 200 000
02	YELLOW NATION PASSPORT PARTNER	Rewards for turning up	Milestone moments; redemptions and repeat visits	R600 000
03	MATCHDAY EXPERIENCE PARTNER	An easier arrival	Planner and travel guide; plans completed	R500 000
04	12TH PLAYER PARTNER	Predictor, quiz and QR games	The Fan Zone; players and QR scans	R400 000
05	FAMILY MATCHDAY PARTNER	A confident first family match	First-match guide; attendance, with no targeting of children	R300 000
06	GLOBAL MASANDAWANA PARTNER	Kick-off in their time zone, watch parties	Global evenings; participation	R300 000
	ALL SIX, A SEASON			**R3 300 000**

BASE CASE

THREE PROPERTIES, R2.3M A SEASON

Presenting, Passport and Matchday Experience: the three most used every day.

CONSERVATIVE CASE

TWO SMALLER ONES, R0.9M A SEASON

Matchday Experience and 12th Player only.

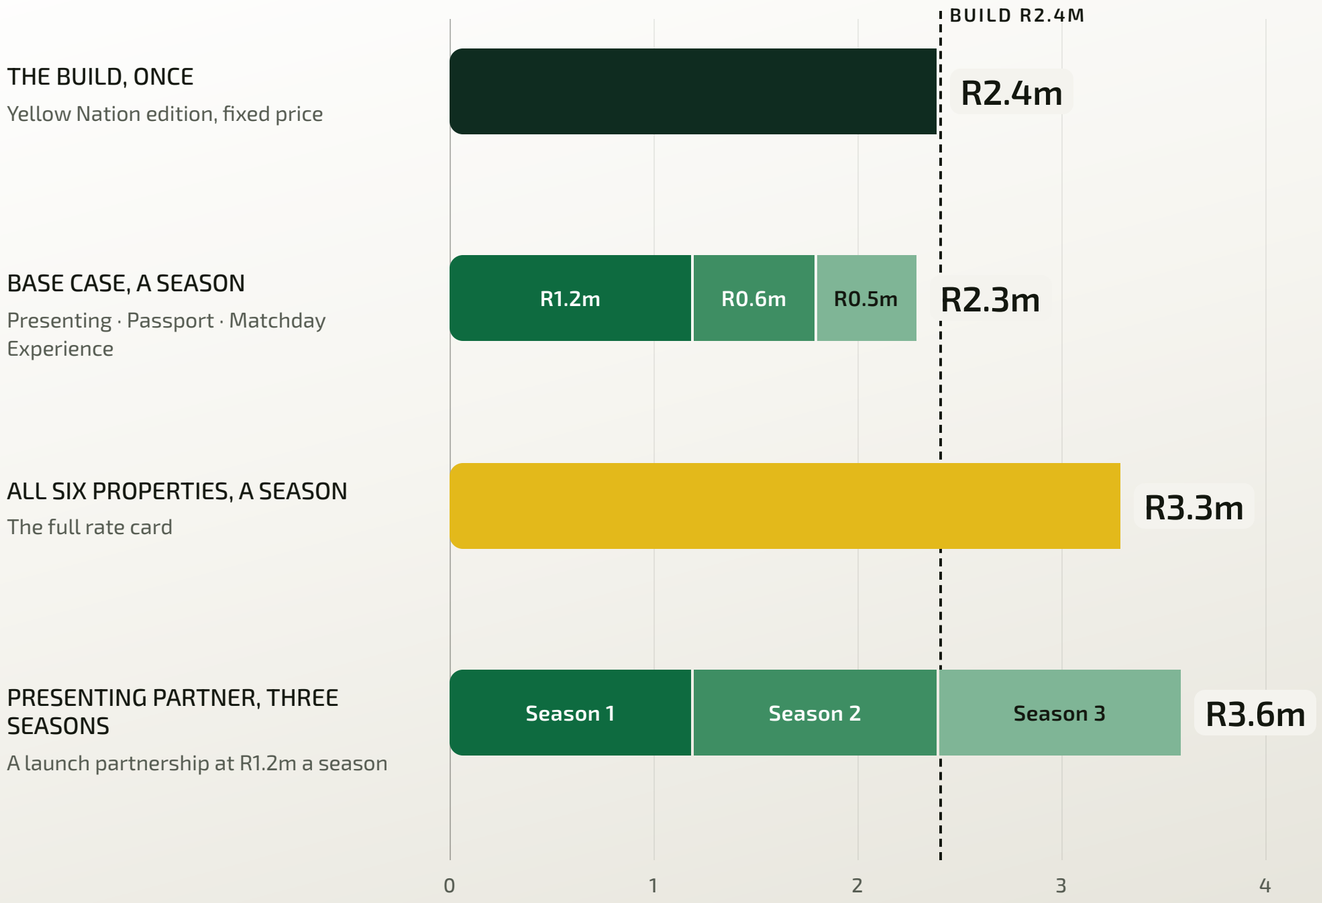

Indicative season fees for planning, excluding VAT. No partner is named or implied; categories are cleared against existing club, league and venue rights before anything is offered.

PARTNER-FUNDED BUILD

THREE PARTNERS CAN PAY FOR THE BUILD, EVERY SEASON

In the base case, three properties bring R2.3m a season against a R2.4m build. It is the app's largest value line, and the one the club can sell before launch.

PARTNER FEES AGAINST THE BUILD, R MILLIONS

SELL THE LAUNCH AS A PARTNERSHIP

Offer the Presenting Partner three seasons at R1.2m: R3.6m, one and a half times the build, signed before the build starts.

REPORTS, NOT IMPRESSIONS

Reach, engagement, conversion and return visits, proven with holdout groups. A claim is not a redemption.

THE VALUE, THE INVESTMENT AND THE RETURN.

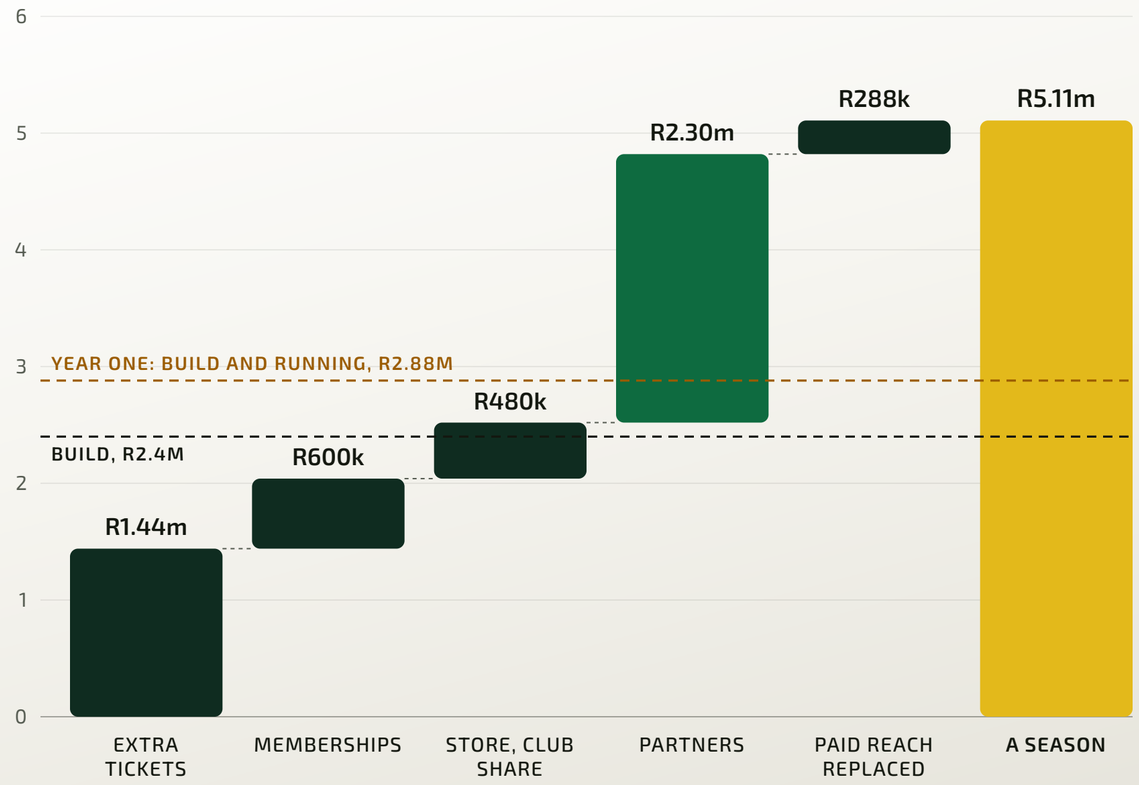

R2 400 000 TO BUILD. ABOUT R5.1M OF VALUE A SEASON IN THE BASE CASE, WITH THE NUMBERS REPORTED EVERY MONTH.

VALUE TO THE CLUB

ABOUT R5.1 MILLION A SEASON: MORE THAN TWICE THE BUILD COST

Five value lines, each tied to a number the app moves and the marketing measures. Illustrative: every assumption is replaced with the club's own figures in discovery.

BASE CASE: HOW A SEASON ADDS UP, R MILLIONS

VALUE A SEASON, THREE CASES

VALUE LINE	CONSERVATIVE	BASE	STRETCH
EXTRA TICKETS 500 · 1 200 · 2 500 a match	R600 000	R1 440 000	R3 000 000
MEMBERSHIPS 800 · 2 000 · 4 000 a season	R240 000	R600 000	R1 200 000
STORE, CLUB SHARE 3% · 4% · 5% of known supporters buy	R180 000	R480 000	R1 000 000
PARTNERS 2 · 3 · 6 properties sold	R900 000	R2 300 000	R3 300 000
PAID REACH REPLACED 30 000 · 60 000 · 100 000 known	R144 000	R288 000	R480 000
A SEASON	**R2 064 000**	**R5 108 000**	**R8 980 000**

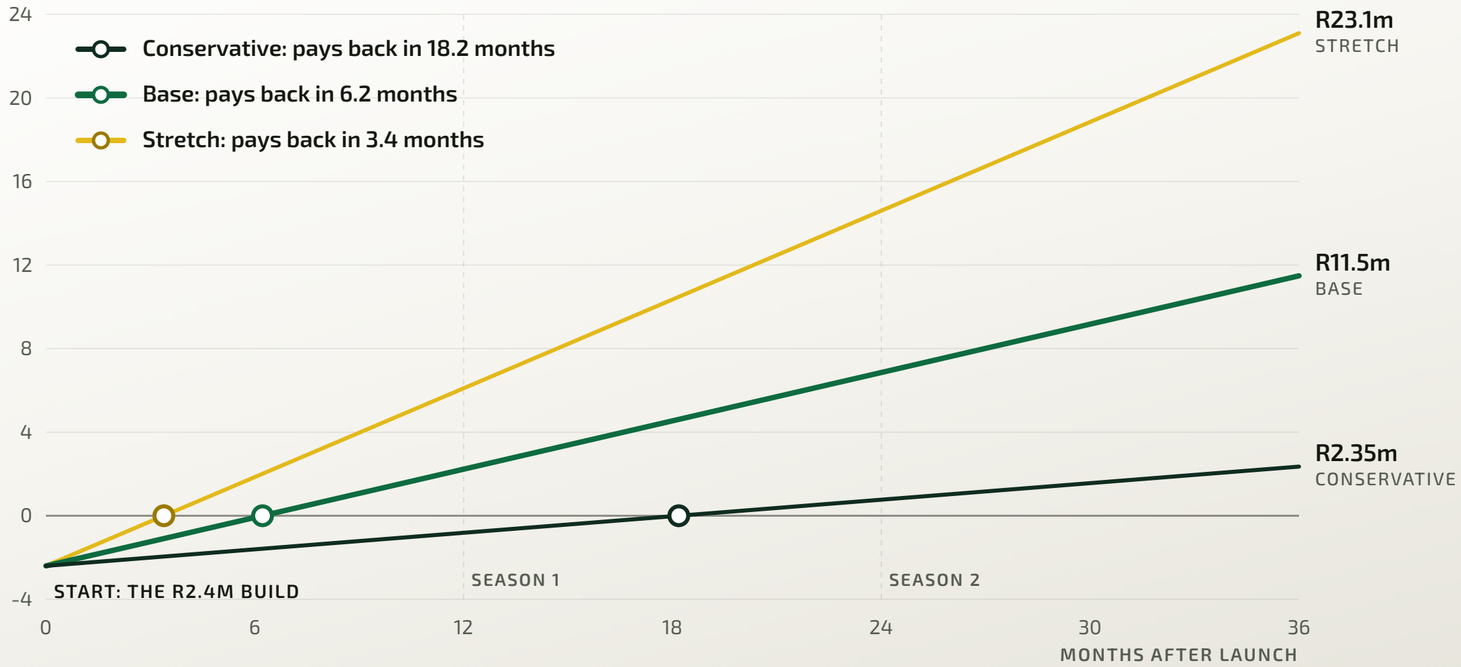

Per full season live. Tickets: extra visits × 15 home matches × R80. Memberships × R300. Store: buyers × R800 basket × 25% club share. Partners: rate card. Reach: known supporters × 24 messages × R0.20. Illustrative, not club figures or forecasts.

RETURN ON INVESTMENT

THE APP PAYS FOR ITSELF IN ABOUT SIX MONTHS OF A FULL SEASON

The club's cumulative position after launch: the R2.4m build and R40 000 a month to run, against value as it arrives. Even the conservative case pays back inside two seasons.

THE CLUB'S CUMULATIVE POSITION AFTER LAUNCH, R MILLIONS

Value counted evenly from launch, less R40 000 a month to run. In practice it builds over the first months; the conservative case allows for that. Excluding VAT.

BASE CASE: R11.5M NET OVER THREE SEASONS

R15.3m of value against R3.84m to build and run: about R4 back for every R1. Conservative: R1.61 back, R2.35m net. Stretch: R7 back, R23.1m net.

435 days · R2 401 200	–R1 200	R360 000	**R2 400 000**

A senior team: 3 480 hours at R690 an hour, the rate in our current proposals. iOS, Android and web from one codebase. On final payment the club owns the code, designs and data.

TIMELINE AND PAYMENTS

TWENTY-EIGHT WEEKS TO LAUNCH, WITH A GATE BEFORE THE BUILD

Weeks from signature. Yellow marks where the club sees and approves progress. Sign so that week 28 lands on a home match.

FOUR MILESTONE PAYMENTS

MILESTONE	SHARE	AMOUNT
ON SIGNATURE Discovery starts	30%	R720 000
CLOSED PILOT ON A TEST BUILD Week 22	30%	R720 000
PUBLIC LAUNCH, BOTH STORES Week 28	30%	R720 000
AFTER 30 DAYS OF HYPERCARE Week 32	10%	R240 000
TOTAL	**100%**	**R2 400 000**

NOTHING IS PAID FOR WORK YOU HAVE NOT SEEN

Each later payment follows a test build, the live app, then a month of operation. Running costs: about R40 000 a month.

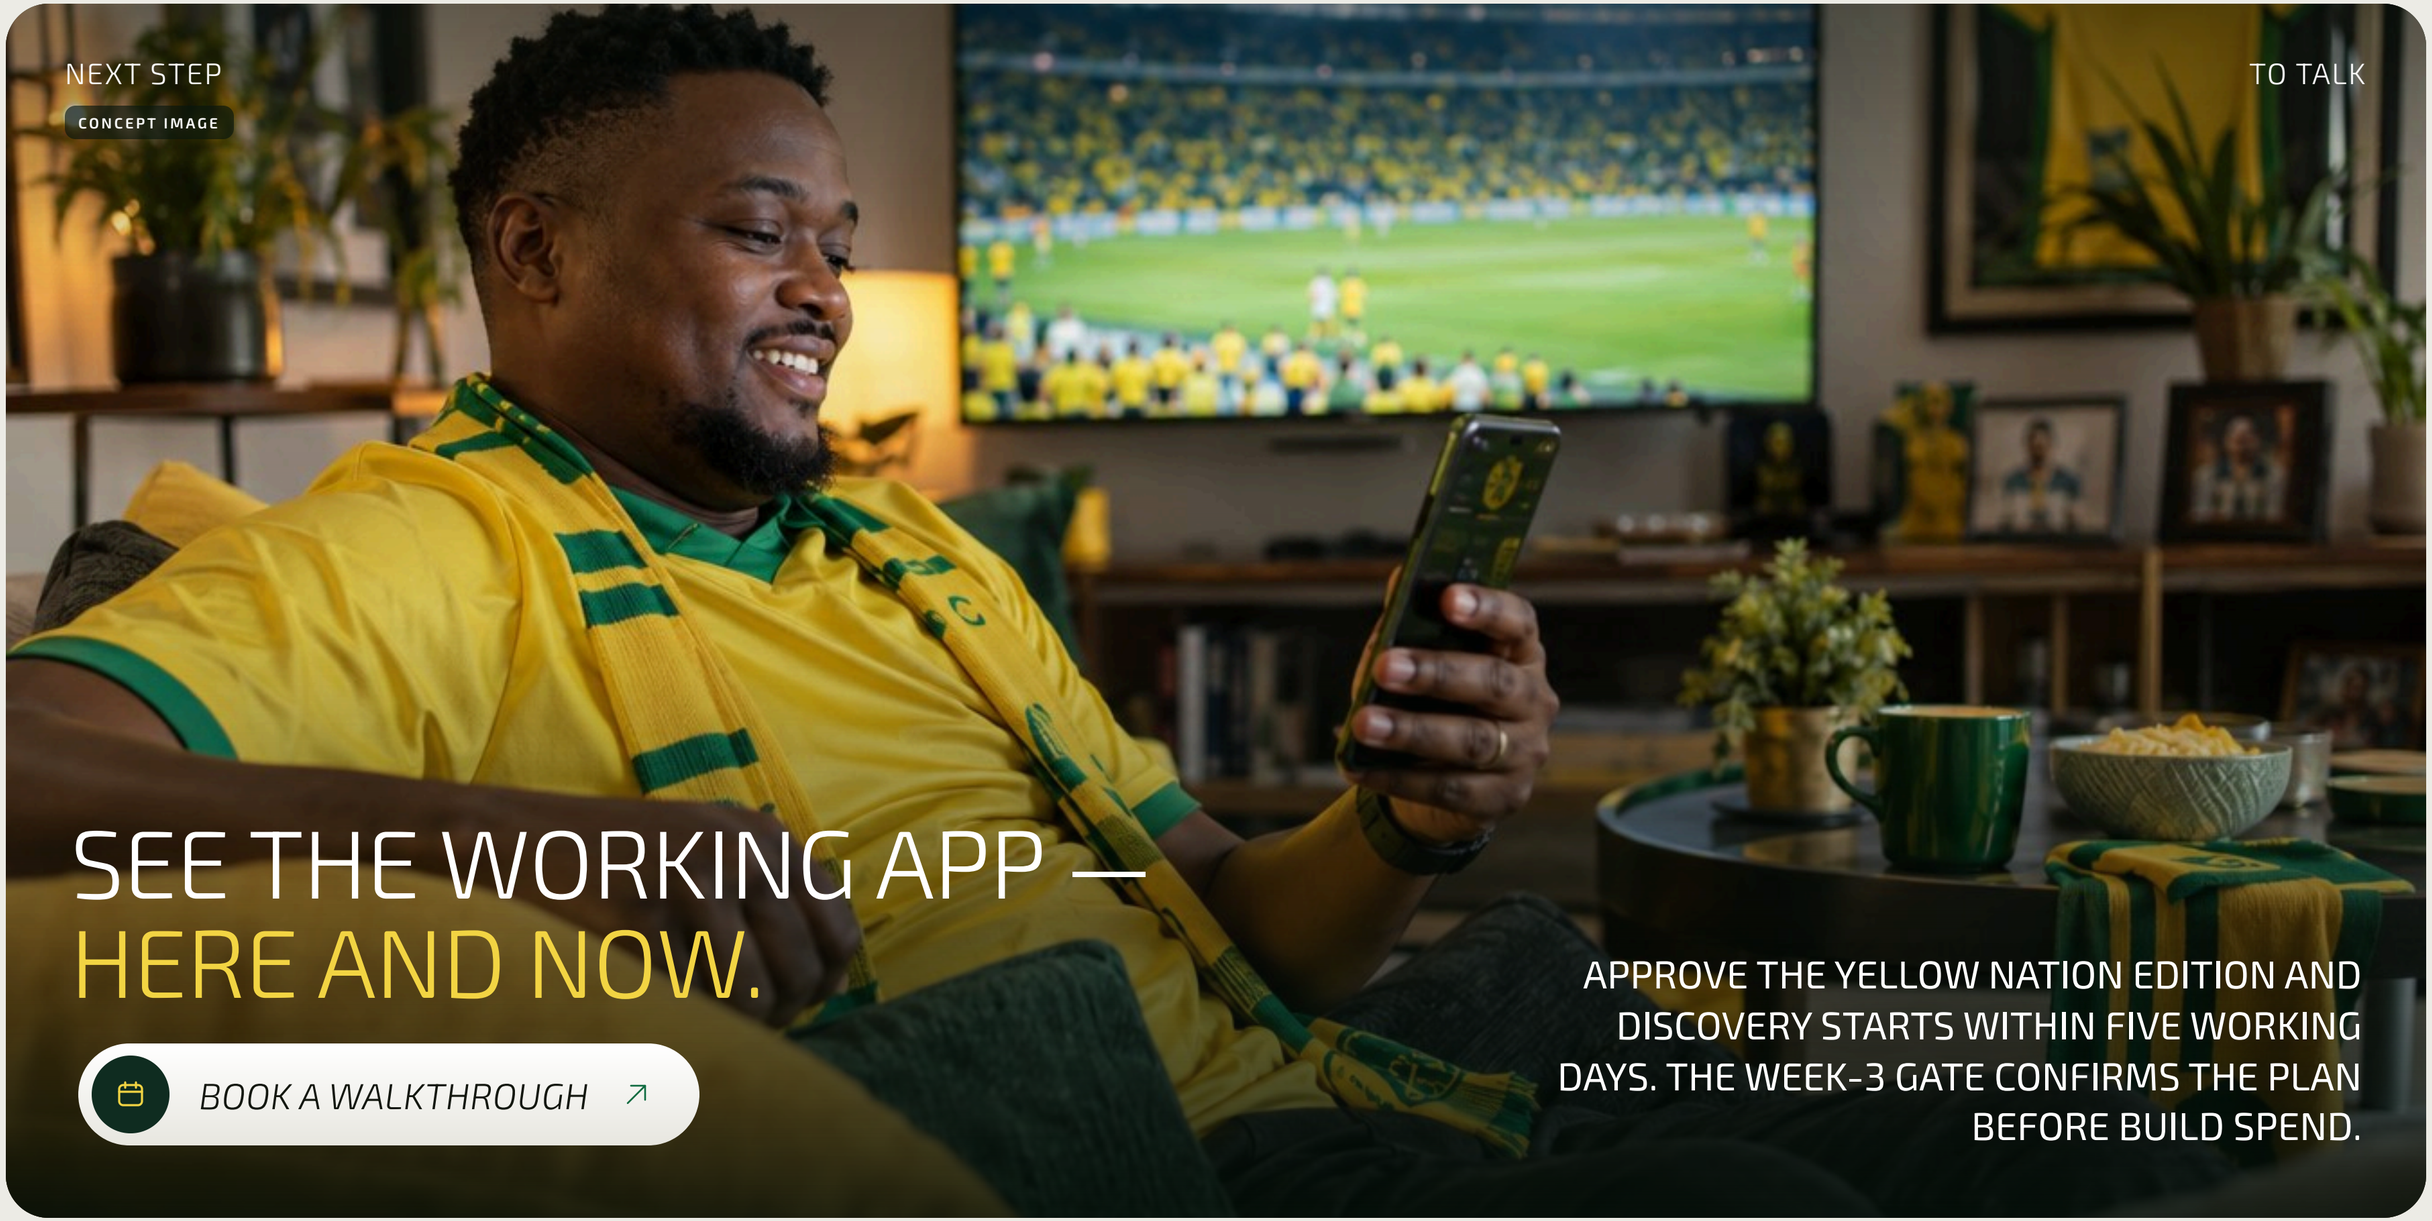

PROTECTION

HOW THE INVESTMENT IS PROTECTED

RISK	HOW WE MANAGE IT
PROVIDERS DIFFER FROM OUR ASSUMPTION	Week-3 gate: providers, their APIs and test access are confirmed before build spend, and re-scoped with you if needed.
PARTNERS SIGN SLOWER THAN PLANNED	Without any partner, the base case still brings R2.81m a season, 97.5% of the first year's cost. The rate card is tested with partners during discovery.
LOW ADOPTION AFTER LAUNCH	Stadium QR codes, a gate briefing, a founding-supporter stamp and the eight-step calendar. Results are reviewed weekly.
SUPPORTERS FEEL OVER-MESSAGED	Consent per channel, frequency caps, quiet hours and one-tap opt-out. The opt-out rate is a reported measure.
PRIVACY AND POPIA	Minimal data, consent recorded with its wording, marketing only after legal sign-off, and totals only for partners.
BRAND AND IMAGE RIGHTS	Only the club's approved crest, marks and licensed photography ship. Concept imagery stays labelled until replaced.
MATCHDAY PEAKS AT LOFTUS	Load tests at kick-off volumes, a low-data mode, and the last confirmed data stays on screen if the signal drops.
SCOPE GROWS DURING THE BUILD	Fixed price for the listed scope. Anything new is priced and approved in writing first.

WHAT THIS RESTS ON

- The club confirms its providers by week 3
- The club supplies its crest, CI manual and licensed photography
- Apple, Google and messaging accounts in the club's name, at cost
- Fixtures, scores, prices and member status come from the club's systems
- English at launch; further languages in a later phase
- On final payment, the club owns the code, designs and data
