BULLS ONE — YOUR TEAM. YOUR SEAT. YOUR MOMENT.

PREPARED FOR THE VODACOM BULLS

A STRATEGY FOR THE APP AS THE CLUB'S MATCHDAY ENGINE, AND AS THE BULLS' OWN MARKETING CHANNEL.

MATCHDAY ENGINE · MARKETING TOOL · LAUNCH PLAN · INVESTMENT

PREPARED BY LEGACYLEVERAGE CREATIVE AGENCY
31 OCTOBER 2026 · CONCEPT PROPOSAL

EXECUTIVE SUMMARY

ONE APP. AN OWNED CHANNEL THAT FILLS LOFTUS AND BRINGS FANS BACK.

The Bulls have a famous stadium, a loyal following and a matchday like no other. Bulls One turns that into an owned, measurable relationship with every supporter who says yes, so each ticket, match and moment becomes the start of the next.

R3 424 000 ALL-IN, UNDER THE R3.5M CAP

THE LAUNCH EDITION: BUILD, THIRD-PARTY COSTS AND A 15% CONTINGENCY, EXCLUDING VAT. R76 000 BELOW THE CAP.

A WEB APP ON EVERY PHONE

INSTALLS FROM THE BROWSER ON IPHONE AND ANDROID AND SHARES BY WHATSAPP. NO APP-STORE BUILD IN THIS BUDGET; NATIVE APPS ARE A LATER DECISION.

ABOUT R40 PER SUPPORTER PER MATCH TO PAY BACK

AT 5 000 ACTIVE SUPPORTERS PER HOME MATCH (ILLUSTRATIVE), THAT COVERS THE LOW RUNNING COST AND RECOVERS THE BUILD IN THREE SEASONS.

APP, CODE AND DATA: THE CLUB'S

TRANSFERRED TO THE BULLS ON FINAL PAYMENT. SUPPORTER DATA IS COLLECTED UNDER POPIA, WITH A CLEAR YES FOR MARKETING.

R0.6M–R1.1M A YEAR TO RUN

SUPPORT, HOSTING, MESSAGING AND FAN CAM OPERATORS. LIVE MATCH DATA IS ASSUMED TO COME FROM THE CLUB'S OWN RIGHTS.

A PILOT MATCH IN MARCH 2027

DRAGONS (20 MARCH) OR EDINBURGH (27 MARCH) AT LOFTUS, FIVE MONTHS FROM THE START, WITH FAN CAM, CHECK-IN AND THE GOLDEN TICKET LIVE.

THE OPPORTUNITY

WHY AN APP, AND WHY IT CREATES VALUE BEYOND THE TICKET

What asset does this money create, and how does it earn? Bulls One is a matchday companion, a loyalty programme and a marketing channel in one. It compounds: every supporter it gains can be reached again.

01

OWN THE RELATIONSHIP

SOCIAL REACH IS RENTED AND RATIONED. A SUPPORTER WHO OPTS IN CAN BE REACHED DIRECTLY WITH A FIXTURE, AN OFFER OR A REWARD, AT ALMOST NO COST PER MESSAGE.

02

KNOW WHO IS IN THE STADIUM

A TICKET BOUGHT FOR A FRIEND LEAVES THE CLUB WITHOUT A NAME. A QR CHECK-IN AT THE GATE TURNS ATTENDANCE INTO KNOWN SUPPORTERS, WITH PERMISSION.

03

FILL LOFTUS BEYOND THE BIG MATCHES

DEMAND PEAKS FOR THE MARQUEE FIXTURES. TARGETED CAMPAIGNS FOR FAMILIES, STUDENTS AND LAPSED SUPPORTERS FILL THE QUIETER ONES, WITHOUT BLANKET DISCOUNTS.

04

PUT SUPPORTERS ON THE BIG SCREEN

FAN CAM TURNS A PHOTO INTO A MOMENT THE WHOLE STADIUM SEES. MODERATED AND CONSENTED, IT IS THE MOST SHAREABLE THING A MATCHDAY CAN OFFER.

05

EVIDENCE FOR PARTNERS

CHECK-INS, REDEMPTIONS AND SCREEN MOMENTS ARE COUNTED, NOT ESTIMATED, SO SPONSOR INVENTORY IS SOLD AND RENEWED ON PROOF.

06

THE CLUB IN THEIR POCKET

FIXTURES, LIVE SCORES, THE PASS AND REWARDS IN ONE PLACE: THE BULLS BRAND EVERY DAY OF THE WEEK, NOT ONLY ON MATCHDAY.

THE STRATEGY ON A PAGE

FOUR LEVERS OF MATCHDAY GROWTH. ONE APP PULLS ALL OF THEM.

Matchday revenue is supporters × matches attended × spend per match, less the cost of serving them. Each part of the app is there to move one of those four numbers, and each is measured.

+

POSITIONING

FOR SUPPORTERS WHO TREAT A MATCH AS AN OCCASION, THE BULLS ARE THE CLUB THAT KNOWS THEM BY NAME. BULLS ONE IS HOW IT REMEMBERS.

WHO IT SERVES

SIX SUPPORTERS THE APP IS BUILT TO SERVE

Each supporter has a job they want done. The app does it for them, and the club gets a measurable result in return.

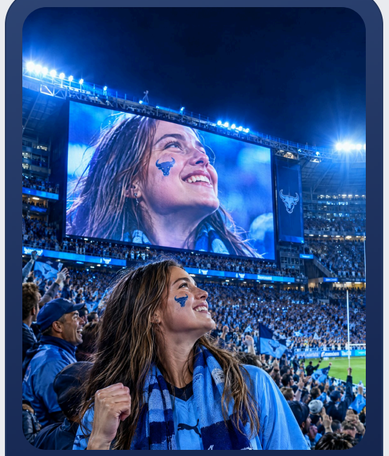

THE SEASON LOYALIST

WANTS: THEIR SEAT, THEIR ROUTINE, TO BE RECOGNISED.
APP: THE DIGITAL PASS, LOYALTY TIERS, A "WELCOME BACK" MOMENT.
MEASURE: RENEWALS

THE MATCHDAY FAMILY

WANTS: AN EASY, SAFE DAY OUT.
APP: THE GETTING-HERE GUIDE, FAMILY DAYS, A KIDS' MOMENT.
MEASURE: FAMILY TICKETS, REPEAT VISITS

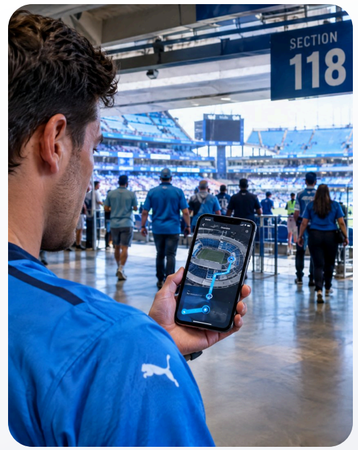

THE FAN CAM STAR

WANTS: THEIR MOMENT ON THE BIG SCREEN.
APP: A CONSENTED, MODERATED FAN CAM.
MEASURE: SUBMISSIONS, SHARES

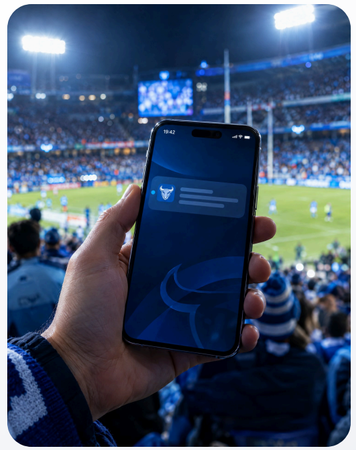

THE STUDENT CREW

WANTS: ATMOSPHERE, A DEAL, BEING SEEN TOGETHER.
APP: GROUP INVITES AND STUDENT NIGHTS.
MEASURE: GROUP TICKETS, FIRST VISITS

THE FIRST-TIMER

WANTS: TO FIND THE GATE, THE SEAT AND THE FOOD.
APP: THE STADIUM MAP AND A FIRST-GAME WELCOME.
MEASURE: A SECOND VISIT

THE LAPSED SUPPORTER

WANTS: A REASON TO COME BACK.
APP: A WIN-BACK NOTE, A FIXTURE ALERT, A REWARD REMINDER.
MEASURE: SUPPORTERS REACTIVATED

These segments are working hypotheses. Each is sized from ticketing and app data during discovery, and campaigns are weighted to the segments that prove largest.

THE SUPPORTER JOURNEY

FROM FIRST LOOK TO NEXT MATCH, ONE CONNECTED FLOW

Each step is something the supporter wants to do. Each one also hands the club something it can use: a source, a known supporter, a moment, a reason to return.

07 RETURN

UNDERNEATH

EVERY STEP WRITES TO ONE SUPPORTER RECORD AND ONE EVENT STREAM. THAT IS HOW A TICKET TRIGGERS ITS REMINDER, A CHECK-IN EARNS ITS POINTS AND A CAMPAIGN PROVES IT WORKED.

ONE VIEW OF EVERY MATCH

RUN MATCHDAY FROM ONE SCREEN

Screen producers see the Fan Cam queue, the screen preview, campaigns and the audit log in one place, with every action checked against their role.

WORKING CONCEPT · OPERATOR CONSOLE · SAMPLE DATA

MODERATION BEFORE AIRTIME

CHECK-IN AND CONSENT SHOWN ON EVERY SUBMISSION. A PERSON APPROVES EACH PHOTO AND NAME; FLAGS AND REASONS ARE LOGGED.

SCREEN STUDIO

A 16:9 PREVIEW WITH SAFE AREAS AND FULL-SCREEN OR LOWER-THIRD LAYOUTS. APPROVED MOMENTS GO TO THE SCREEN TEAM READY TO PLAY.

HONEST NUMBERS

SUBMISSIONS, APPROVAL TIME, CHECK-INS AND REDEMPTIONS ARE REPORTED PER MATCH. REVENUE IS CREDITED ONLY UNDER ATTRIBUTION RULES AGREED WITH THE CLUB.

THE APP AS THE BULLS' OWN MARKETING TOOL

EVERY TICKET, MOMENT AND REWARD IS DESIGNED TO BRING IN THE NEXT SUPPORTER, AND TO SHOW THE CLUB EXACTLY WHERE THEY CAME FROM.

MARKETING ENGINE

SIX WAYS THE APP MARKETS THE BULLS, EVERY DAY

An app is usually treated as a cost of service. Built well, it is the most efficient marketing channel a club can own.

01

EVERY TICKET IS AN INVITATION

A TICKET IS RARELY FOR ONE. “INVITE YOUR CREW” SHARES THE MATCH, THE KICK-OFF AND A CALENDAR LINK BY WHATSAPP, SO EVERY PURCHASE INTRODUCES THE APP TO NEW PEOPLE.

02

THE BIG SCREEN GOES HOME

AN APPROVED FAN CAM MOMENT ARRIVES AS A SHAREABLE CARD. EVERY SHARE CARRIES THE BULLS ONE LINK TO PEOPLE WHO WERE NOT AT LOFTUS.

03

GIFTS THAT RECRUIT

A “GIFT A MATCHDAY” VOUCHER IS A NEW SUPPORTER, INTRODUCED AND PAID FOR BY AN EXISTING ONE. REDEEMING IT BRINGS THEM INTO THE APP.

04

ONE PAGE, ONE ACTION

CAMPAIGN PAGES FOR THE BIG MATCH, FAMILY DAY AND STUDENT NIGHTS, EACH WITH ONE BUTTON AND A TRACKED LINK FOR EMAIL, QR, SOCIAL AND WHATSAPP.

05

REACH WITHOUT RENT

PUSH, IN-APP AND EMAIL REACH OPTED-IN SUPPORTERS AT ALMOST NO COST PER MESSAGE, WITH FREQUENCY CAPS AND QUIET HOURS SO EVERY MESSAGE IS WELCOME.

06

FOUND WHERE FANS LOOK

RICH LINK PREVIEWS ON WHATSAPP AND SOCIAL, FIXTURE DATA STRUCTURED FOR GOOGLE AND AN INSTALL LINK THAT WORKS ON ANY PHONE. RANKINGS ARE EARNED AND MEASURED, NEVER PROMISED.

THE SELF-MARKETING LOOP

EACH SUPPORTER BRINGS IN THE NEXT ONE

HOW IT COMPOUNDS

PAID MEDIA BUYS A SUPPORTER'S ATTENTION ONCE. THE LOOP KEEPS WHAT THE FIRST TICKET EARNED: THE CREW, THE CHECK-IN, THE MOMENT AND THE SHARE EACH CARRY THE BULLS TO SOMEONE NEW. THE APP TRACKS EVERY TURN.

A CREW IS REACH

A TICKET IS RARELY FOR ONE. EACH SHARED TICKET REACHES EVERYONE IN THE GROUP.

A MOMENT IS AN ADVERT

THE SUPPORTER ON THE BIG SCREEN SHARES IT. THE PEOPLE WHO SEE IT ARRIVE ALREADY SOLD ON LOFTUS.

CAMPAIGN PLAYBOOK

FIVE CAMPAIGNS, READY FOR THE FIRST HOME MATCH

Each campaign has one job, one audience and one button. Together they cover the season, the matchday and the gifting year.

Partner categories are illustrative. Placements respect existing sponsor contracts and category exclusivity, and are agreed with the club's commercial team.

THE FIRST 90 DAYS: SEED, LAUNCH, COMPOUND

Launches fail quietly when the app is ready but the stadium is not. The plan starts with the stewards at the gates and the screen team, not with an advert.

- QR CODES AT GATES, SEATS AND CONCESSIONS, TRACKED PER SPOT
- LINKS FROM THE CLUB WEBSITE, SOCIALS AND WHATSAPP CHANNEL

COMPOUND

- ROTATE THE FIVE CAMPAIGNS BY FIXTURE

2 400 hours · R2 760 000	R250 000	R414 000	**R3 424 000**

Blended R1 150 an hour, as in the cost audit. Third-party lines sit at the low end of the audit's ranges; any overrun comes from contingency. Excludes VAT (R513 600), LED hardware, stadium Wi-Fi and club staff time.

RETURN ON INVESTMENT

THE APP PAYS ITS WAY AT ABOUT R40 PER SUPPORTER PER MATCH

Break-even is simple arithmetic: the running cost plus the build spread over three seasons, set against the extra contribution app supporters bring. The table shows a season's contribution across a range.

EXTRA CONTRIBUTION PER SEASON, 9 HOME MATCHES

PER ACTIVE SUPPORTER, PER MATCH	2 500 SUPPORTERS	5 000 SUPPORTERS	10 000 SUPPORTERS
R20	R0.45m	R0.90m	R1.80m
R40	R0.90m	**R1.80m**	R3.60m
R60	R1.35m	R2.70m	R5.40m

Season contribution = active supporters × 9 home matches × extra contribution each. Contribution is the margin on tickets, food, drink and merchandise that would not have happened without the app, measured with holdout groups. Shaded cells clear the R1.76m target. The values are illustrative, not the club's figures, and are replaced with real numbers in discovery. Sponsorship is upside and not counted.

IN THE MIDDLE CASE: R1.8M A SEASON

THE TARGET IS ABOUT R1.76M A SEASON: R0.62M TO RUN THE APP (LOW CASE) PLUS R1.14M TO RECOVER THE R3.42M BUILD OVER THREE SEASONS. 5 000 ACTIVE SUPPORTERS AT R40 EACH PER HOME MATCH CLEARS IT.

TIMELINE AND GATES

A PILOT MATCH IN MARCH 2027, INSIDE A FIXED R3.5M CAP

Months from a November 2026 start. Blue marks the points where the club sees and approves progress. Native apps, gate integration and screen playout are a later phase, funded outside this budget.

THREE DECISION GATES

GATE 1
December 2026

PARTNERS CONFIRMED
Ticket-seller link, AV hand-off and the POPIA review. Build, or adjust scope inside the cap.

GATE 2
April 2027

PILOT RESULTS
Check-ins, submissions and shares against the targets agreed in discovery.

GATE 3
May 2027

NEXT PHASE
Decide what comes next, and how it is funded, from the pilot's own numbers.

THE R3.5M CAP IS FIXED

IF SOMETHING NEW IS NEEDED, SCOPE OF EQUAL SIZE IS SWAPPED OUT OR MOVED TO THE NEXT PHASE. THE BUDGET DOES NOT MOVE.

MEASUREMENT

MEASURED EVERY MATCH, FROM THE PILOT ON

Club outcomes, not vanity metrics. Baselines come from the pilot match, targets are agreed with the club in discovery, and every estimate is labelled as one.

GATE CHECK-IN RATE

QR CHECK-INS AS A SHARE OF THE CROWD, BY GATE AND BY KICK-OFF TIME.

FAN CAM FUNNEL

SUBMISSIONS, APPROVAL RATE AND TIME TO SCREEN, SO MODERATION IS STAFFED ON EVIDENCE.

KNOWN-SUPPORTER SHARE

THE SHARE OF ATTENDANCE LINKED TO A SUPPORTER WHO SAID YES. THE NORTH-STAR MEASURE OF THIS STRATEGY.

REPEAT ATTENDANCE

OPTED-IN SUPPORTERS WHO RETURN FOR ANOTHER HOME MATCH IN THE SAME SEASON.

OPT-IN AND OPT-OUT

CONSENT GAINED AND WITHDRAWN, PER CHANNEL. A RISING OPT-OUT RATE MEANS FEWER, BETTER MESSAGES.

INCREMENTAL REVENUE

PROVEN WITH HOLDOUT GROUPS AND AGREED ATTRIBUTION WINDOWS, NEVER CLAIMED FROM LAST CLICK ALONE.

PROTECTION

HOW THE INVESTMENT IS PROTECTED

RISK	HOW WE MANAGE IT
PARTNERS DIFFER FROM OUR ASSUMPTIONS	Gate 1: the ticket-seller link, the AV hand-off and the POPIA review are confirmed before build spend, and scope is adjusted inside the cap if needed.
LOW ADOPTION AFTER LAUNCH	QR codes at the gates, a steward script, a founding-member reward and Fan Cam as the reason to install. The dashboard shows what works, every match.
SOMETHING WRONG REACHES THE BIG SCREEN	A person approves every photo and name, flagged items get a second check, the screen team plays only approved files, and a full audit log backs it up.
PRIVACY, POPIA AND MINORS	Data minimised, consent recorded with its wording, a guardian's consent for under-18s, and marketing on only after the club's legal sign-off.
MATCHDAY TRAFFIC SPIKES	Load testing for kick-off and half-time peaks, and a pass that still opens offline at the gate.
IMAGE AND BRAND RIGHTS	Licensed club photography and approved marks replace the concept images before launch.
PRESSURE ON THE R3.5M CAP	The cap is fixed. A new request swaps out scope of equal size or moves to the next phase, agreed in writing first.

WHAT THIS RESTS ON
